

Learning
through
Landscapes

www.ltl.org.uk/training-and-events

Outdoor play and learning training for early years practitioners and managers.

Our training and consultancy services are led by specialists with extensive experience working in early years settings and local greenspace.

We are passionate about the benefits of time spent outdoors for the youngest of children and knowledgeable about the challenges faced by early years settings and busy practitioners.

From half-day Maths Outdoors and Literacy Outdoors through play to our flagship Nurturing Nature programme and bespoke whole-setting consultancy packages, all training includes resources and materials to ensure that participants are fully supported to lead rich outdoor play and learning.

Whether you are at the beginning of your early years career, looking to enhance your skills or are inspired to lead a whole-setting transformation to outdoor play and learning, we can help.

Half-day early years courses start at £420 + VAT and we can work with you to develop a bespoke package of training and consultancy from £580 + VAT per day.

Visit us at www.ltl.org.uk/training-and-events or contact us to discuss:

- Inspiring staff confidence and ability in outdoor play and learning
- Support for early learning and childcare entitlement of 1140 hours in Scotland
- Enabling daily nature connection
- Understanding and managing risk
- Engaging parents and carers through outdoor play and learning
- Advisory visits for schools and early years settings
- Inspiring low-cost natural spaces in nursery grounds
- Overcoming barriers and maximising use of local greenspace
- Whole-setting culture change
