

Thanks to the generosity and support of many of Learning through Landscapes' long-term suppliers and collaborators, we are able to offer a range of 26 quality prizes in a draw for schools returning a full copy of the 2025 survey. The prizes in this draw are worth a collective total of over £3000, with several prizes retailing at over £100. We hope this draw will encourage schools to spend 10 to 15 minutes completing the survey to help measure the impact and importance of school grounds across Scotland. Please opt in at the end of the survey to be entered. Prizes will be sent out directly to winning schools from suppliers in April 2025.
