The Project

Our new *My Nature Play* programme helps young children fall in love with nature by improving their outdoor experiences in their Early Years settings. We want every child across the UK to have the opportunity to play, explore and learn outdoors, every day.

Over the course of a term, practitioners take part in six, fun, practical training sessions designed to build skills, confidence and inspiration for high-quality nature play. Together, we'll discover simple, creative ways to bring outdoor learning to life, both within settings and in local green spaces. Delivered throughout England, Wales and Scotland across 170 Early Years settings, *My Nature Play* will create a long-term legacy of confidence, creativity and connection to nature.

We'll also work closely with parents and carers, helping them to find joy in spending more time outside with their children and creating memories that nurture curiosity, confidence and connection to the natural world.
